

Animal Health & Wellness

Enhancing Animal Health The Natural Way
Using Therapeutic Essential Oils

Learn how we apply therapeutic oils to aid our pet's digestive issues, how itchy skin responds to the same oil that will remove a tick within minutes and lot's more! The miracle of using essential oils (Nature's Energy) to improve our pet's health is the same used in our wellness. Essential oils are the healing products you can put in the family medicine cabinet for everyone's healing, humans and animals.

When: Tuesday Evening, Jan 31st
6:30 – 8:00pm
